

Focus-4 Construction Training

Since January 2006 there have been 25 work-related fatalities within Kentucky's commercial construction workplace. All of which were one of the following: Falls, Electrocuting, Struck-By, and Caught In/Between. These four categories are part of the most frequent accidents in construction, known as the **Focus-4**.

Falls

Electrocuting

Struck-By

Caught In/Between

During this free training participants will learn steps they can implement to prevent these jobsite hazards. Training times are from 8:00am-2:00pm. Check the most convenient date/location below and then fax your completed form to (502) 227-8014. You may also register and view driving directions at <http://www.agcky.org/focus4>.
